

# Hazardous Fuels Project Information Sheet

## Cedar Mountain Bullhog Treatment

Richfield Ranger District, Fishlake National Forest

**Contact Information:** Ryan McCollin  
435-896-1661, [rmccollin@fs.fed.us](mailto:rmccollin@fs.fed.us) or Jill  
Ivie 435-896-1573, [Jill\\_Ivie@blm.gov](mailto:Jill_Ivie@blm.gov).

**Planned Treatment Date:** November  
2009 – December 2010

**Location:** The project is located  
approximately 4 miles east of Salina, on  
top of Cedar Mountain. This project is  
located entirely on National Forest System  
lands.

**Legal Description:** The project area is in  
Township 21 South, Range 1 East, and  
Sections 13, 23, 24, 26, 27, 34 and 35.

**Project Description:** The Cedar Mountain Bullhog Treatment consists of approximately 1060 acres in areas previously chained. Skid steer loaders with mulching and cutting attachments along with chainsaws will be utilized to remove encroaching Pinyon and Juniper trees within the unit. This project is considered chaining maintenance and carries with it a primary fuels treatment objective of reducing the existing wildland fire hazard resulting from activity fuels, thus reducing potential negative effects from future wildland fire. This treatment will be in conjunction with the installation of 5 to 10 guzzlers across the Cedar Mountain area, purpose of guzzlers is to provide enough water to restore a key wildlife transition habitat.
